Airpax Series 300 choppers are available in three mounting styles. The popular plug-in style, Type 300, fits a 7-pin miniature tube socket. It can be locked in place by a tube shield.

For permanent mounting, Airpax supplies you with Type 303. The Series 300 chopper withstands shock and vibration, commending it to such rigid mounting.

Or, for mounting parallel to a chassis, Type 302 is available. These choppers, rated for 2,000 hours life, can be soldered advantageously into many equipments.

**THIS RUGGED LONG-LIFE CHOPPER CAN TAKE IT!**

Airpax Series 300 choppers operate at 400 CPS. The SPDT contacts are rated for 2 MA at 100 V MAX.
