

**PRODUCT BRIEFS**

**LIMITER AMPLIFIER** dual channel. Dynatronics, Inc., P. O. Box 2566, Orlando, Fla. (318)

**TRANSISTOR HEADER** microminiature. Hermetic Seal Corp., 29-37 S. Sixth St., Newark 7, N. J. (319)

**RECTIFIER TEST SET** high accuracy. Baird-Atomic, Inc., 33 University Rd., Cambridge 38, Mass. (320)

**POLARIZER** for p-c cards. The Ucinite Co., Newtonville, Mass. (321)

**BLOCK TAPE READERS** modular design. Electronic Engineering Co. of California, 1601 E. Chestnut Ave., Santa Ana, Calif. (322)

**AUTOMATIC DICE SORTER** cuts costs. Techni-Rite Electronics, Inc., 71 Centerville Rd., Warwick, R.I. (323)

**POLYSTYRENE CAPACITORS** miniaturized. Telephone Mfg. Co. Ltd., Martell Road, West Dulwich, London S.E. 21, England. (324)

**FILAMENT MOUNTING MACHINE** fully automatic. Kahle Engineering Co., 3322 Hudson Ave., Union City, N. J. (325)

**THERMOCOUPLE SIGNAL CONDITIONER** modular, eight-channel. Astra Technical Instrument Corp., Los Angeles, Calif. (326)

**DIGITAL VOLTMETER** modular construction. Franklin Electronics Inc., Bridgeport, Pa. (327)

**PARAMETRIC AMPLIFIERS** single-knob tunable. Sylvania Electric Products Inc., P. O. Box 997, Mountain View, Calif. (328)

**REMOTE CONTROL** for variable auto-transformers. General Radio Co., West Concord, Mass. (329)

**MULTIPLIER PHOTOTUBE** venetian-blind dynode structure. Radio Corp. of America, Harrison, N. J. (330)

**SILICON POWER TRANSISTORS** in TO-3 cases. Fanon Transistor Corp., 439 Frelinghuysen Ave., Newark 12, N. J. (331)

**SOUND ANALYZER** weighs 4 lb. Industrial Acoustics Co., 341 Jackson Ave., New York 54, N. Y. (332)

**WELDED HAT RECTIFIER** 1.6 amp half wave. Tucor, Inc., 59 Danbury Rd., Wilton, Conn. (333)

*Philbrick makes the most complete line of operational amplifiers*

Now you select your performer from two lines of octal plug-in

# PHILBRICK OPERATIONAL AMPLIFIERS

**K2 Series . . .** For efficient and foolproof differential amplifier operation, the popular Philbrick K2 modular plug-ins still satisfy all but the most exacting requirements at a price far less than it would cost to build them yourself.

**SK2 Series . . .** For higher performance, for extra long periods of drift-free uninterrupted service, try these new SK2 plug-ins. They are interchangeable with the K2's both electrically and physically, and their low price will amaze and delight you.

	K2-W Differential Operational	K2-XA Differential Operational	K2-P Stabilizing	SK2-V Differential Operational	SK2-B Booster Follower	SK2-P Stabilizing
Open Loop DC Gain	15,000	30,000	1000	100,000	+3.5	2000
Output	± 50v 1ma	± 100v 3ma	—	± 100v 3ma	± 100v 20ma	—
Unity Gain Crossover	400 KCPS	500 KCPS	—	1 MCPS	—	—
Unit price*	\$22	\$27	\$52	\$58	\$36	\$65

Each K2 has a premium counterpart for use in exacting military and industrial applications.

The K2's have always been the lowest priced operational amplifiers. The new prices above make them even lower. These reductions are now possible because of production economies resulting from the continuing rise in demand for K2's. Improvements, too, will be noted. (The familiar shape has been retained, but the gold color has been changed to a computer grey.) More important, new plastics replace the old to achieve higher impact strength, higher temperature operating characteristics, and higher dielectric strength and reduced leakage.

The SK2 family offers you the same plug-in conveniences as the K2 family, but the higher performances shown provide more speed and accuracy when you design instrumenting, computing, and controlling devices. The dependability of the SK2's is assured by the following design features: all elements are severely derated; the ventilated cases are all-aluminum; components are mounted on epoxy glass terminal boards; and a glass-to-metal header minimizes leakage and noise. Furthermore, SK2's can be secured to the chassis, which acts as a heat sink.

We invite you to acquaint yourself with Philbrick's wealth of applications literature. Write for specifications, prices, and 28-page applications manual.
