

Here's Mid-Century's Analogue Computer Installation

AT **REPUBLIC**  **AVIATION**

Where huge savings in time and costs will be realized!

Because Republic can "fly" an aircraft or guided missile, including take-off, cruise, landing, maneuvers and emergency conditions right in this computer center. Here, the actual performance is actually and accurately simulated, in a safe and in a relatively inexpensive manner. Here the optimum in design characteristics is determined without endangering human lives or incurring losses of millions of dollars with test flight models.

Every industry that now utilizes test models can save millions of dollars in time and model costs with a

Mid-Century analogue computer center. Every industry that needs production or automation controls can do likewise by substituting Mid-Century analogue computers to more easily and cheaply adjust their manufacturing processes to a higher optimum of production with greater uniform quality.

For a Free Survey on how Mid-Century computer equipment can help solve your specific problems, you need only mail the coupon today — and add to your earnings tomorrow!

MID-CENTURY INSTRUMATIC CORP.
